An established motor yacht range like the sublime 48ft series demands to have its legacy continued. And the Squadron 50, the flybridge version of our exciting new 50ft range, is here to continue the journey.

Every consideration has gone into the design of the Squadron 50.

The flybridge has been configured to offer all the space you need to enjoy a leisurely breakfast around the teak dining table, before claiming the sunbed and your place in the sun. There is a stunning anthracite roof, while on the inside, a beautiful range of contemporary colours offer a touch of understated elegance to the expertly designed space. Cruising to any destination will happen on your command, thanks to the twin Volvo IPS 600, 650 or 700 engines. But there is something equally as thrilling at your fingertips. Our first ever Premium Pack option, with a host of specifications including high capacity air conditioning, teak-laid flooring on the flybridge and a submersible bathing platform to name just a few. This is a yacht ready to take you places. And take you there in style.
